Course Scheduling

School Counselors begin working with students to select courses for the following school year in February each year. Counselors meet with each student individually to ensure that graduation requirements are met while discussing specific interests and college/career goals. If you have questions about courses or need copies of scheduling forms please use the appropriate documents found on the 25-26 course registration page.

School Counselors review graduation requirements with students each year through classroom guidance lessons. The 4 steps to graduation can be found below and the specific breakdown of the required 26 credits can be found in the High School Program of Study on the first page.

Login to Student Portal to check your Recommendations and Course History.

First

- **Review your teacher recommendations.** If you have questions see your first semester teacher. Please take these recommendations seriously as they are most likely the best fit course for you next school year.
- **Review your course history** and determine what courses you still have left to complete.

The screenshot displays a student portal interface with three subject categories: ENGLISH, MATH, and SCIENCE. Each category lists recommended courses with their respective credit values and a small icon. Below each list is a note about teacher selection and a 'Number of requests to generate' field set to 1.

Subject	Course Name	Credits
ENGLISH	English 12 S1	A12010 - 0.5 credits
	English 12 S2	A12020 - 0.5 credits
MATH	Found College Alg S1	D41019 - 0.5 credits

10 COURSE REGISTRATION WORKSHEET – SCHOOL YEAR 2023-2024 For Planning Purposes

Student ID# _____

Parent Phone Number _____ Parent Email _____ Student Last Name _____ Student First Name _____

It is the responsibility of the parent/guardian to coordinate and select courses using teacher recommendations and consultation with teachers, school counselors or PowerSchool. Please contact your school counselor for more information. **NOTE:** Upon completion of the Course Registration process by Spring 2023, no schedule changes are permitted. Course offerings may be requested in accordance with school system policy during the first 10 school days of a new semester (i.e. only schedule corrections authorized by the principal).

	Spanish for Native Speakers 2							
					Subtotal Credits:			

Students can enroll into 8 classes first semester and 8 classes second semester. There is a separate elective offerings document that contains the elective choices. Core classes should equal 4 or 5 credits (including World Languages). If you want to override a teacher's recommendation, please circle choice and initial the new one.

- If you and your parent would like to change your teacher recommendation you must **bring the parent signed worksheet to your counselor** when you meet.
- **Students/Parents are not able to change teacher recommendations in PowerSchool.**
- Completing the worksheet ahead of time will ensure your requests are ready before adding them to PowerSchool. The portal will time out and not save if requests are not submitted after a few minutes.

A Note about your elective and alternate choices:

Enter alternates knowing they could appear in your schedule if your first choices are not available or do not fit with your core classes. Your School Counselor will make every effort to schedule you for classes you want. Please note that other classes will be substituted by your School Counselor if your first choices and alternates are not available or compatible with your core classes.

3

Enter your Course Requests online via Student Portal/PowerSchool between January 23 and January 27.

Instructions on how to enter your course requests are posted on the Counseling Center Website.

Entering Course Requests in Student Portal

All students will enter course requests for the 2022-2023 school year through their Student Portal account. Students should be familiar with this as they have used this process for the last couple of years. The school counselors have made instructional videos to help and are available to answer questions during select open Bruin Blocks.

Logging in to Student Portal

The screenshot shows a Windows desktop environment. In the top-left corner, there is a 'PowerSchool Student Portal' application icon. A play button is overlaid on this icon, indicating a video tutorial. The desktop background is a blue gradient with various application icons including OneDrive, Outlook, and the Student Portal icon. The taskbar at the bottom shows the Start button, a search bar, and several pinned application icons.

SUBMIT!!

Be sure to **SUBMIT** your 8 credits plus alternates BEFORE January 28. Your counselor can still make any edits when we meet with them during English. **We will not have time to enter all of your requests during that meeting so please SUBMIT your course requests ahead of time!**
